

# Rolling Hardy Portable Tool Case

Rolling Hardy Tool Case is a rolling high density polyethylene tool case. On the inside, we have added professionally made Tool Pallets made with special heavy duty material that will conform to your tools but does not stick. Find extra storage space in back of the lid pallet, underneath the bottom pallet, and between the wheels to store other needed equipment like meters, tape, rules, etc. If you have special customized applications for a fleet of service techs, please let us know.
