Traveler Solutions

Porter Case is the perfect case for many occupations. The Porter Case product line contains a variety of interior options designed with your needs in mind, to protect, carry, and organize your valuable professional equipment, instruments, samples - anything you need to protect. Whatever your profession, Porter Case will make your travel easier. Used by executives, speakers, trainers, trade show specialists, photographers, technicians, and many others as an organizer for relaxed, hassle-free travel.

It's a Case...a Tote...a CART. All in one!

Protect your valuables! **Transport your gear in the only hard-sided, wheeled, carry-on with a built-in cart.** To convert, simply pull two latch pins, fold your Porter Case down to the cart Position, stack your other baggage on top, and away you go. Porter Case's exclusive design eliminates the hassles of carrying cumbersome gear on those long walks through terminals and parking lots. Only Porter Case offers you the convenience of a cart feature!

The airline regulation carry-on size Porter Case rolls easily down aisles and will fit under most seats and in overhead compartments. Keep your most important valuables with you by rolling them on board and checking the rest. Take your Porter Case with you on trains, planes, ships, and autos. It's the most efficient way to travel. It saves time, money, and eliminates looking for a Skycap, airport cart rental, or Bellman - and forget about tipping!

Use your Porter Case every day - for trips across town, down the hall, wherever you need sturdy, rugged transport for your gear. With Porter Case, your most important valuables and your **CART** are always with you...you'll never need another set of wheels! Porter Case takes you anywhere you need to go!

The Stackable Stowaway 20-20

Shipping Case

The Stowaway 20-20 is designed to meet the recommended ATA-300 specifications for airline shipping cases. Its construction is of Polyethylene plastic with aluminum valance, industrial heavy duty twist latches, 3 spring loaded loop handles, and lid stays with optional pluck foam on the inside.

Up to 3 **Stowaway 20-20** cases will nest on top of a Porter Case PC II or Elite model when converted to the cart position to form a complete "travel system" for the professional frequent traveler.

Weight

- 16 lbs - 7.25 kg

Features

- Spring loaded side loop handles
- Chrome plated HD twist latches
- Mil-grade high density polyethylene
- Lid stays
- Fully cloth lined

Accessorize **Inside and Out**

The many additional accessory enhancements offered by Porter Case will help you create your own personalized case solution for even more efficient and enjoyable traveling.

By offering a wide variety of interior accessory options, Porter Case makes it easy for you to make your personal case multifunctional to handle any travel needs.

SDL/Saddlebag

Double your carry-on capacity. Designed as a place to put your jacket, overcoat, tickets, magazines, snacks, etc. Slip over the sliding handles. Black 400 denier material, strap handles, removable shoulder strap, insignia, two or three storage areas (depends on the version), Velcro, and YK fasteners.

Soft Computer Bag

Fits inside the larger PC II wheeled carryon, or it can be attached to the outside with the accessory strap. A padded shoulder strap is included. The ideal solution for those times when you don't want to roll your Porter Case. Use the hard-side Porter Case to help transport and protect your soft case.

Hook/Accessory Strap

Snap onto a "D" ring and attach another case (computer, briefcase, etc.) to the outside of your Porter Case when in the tote position. The adjustable snap buckle mechanism will hold another case with a secure grip.

Suit Bag

Suitbag - a light weight tri-fold suitbag made of 200 denier material with embroidered logo on the outside wall and breathable mesh material with zipper on the inside wall. There is a wire frame that helps you form the tri-fold shape needed to help it fit into the lid of the full size PC II Standard case.

PHPK/Soft Divider System

Convuluted gray foam for the lid, 1/2" HD foam sheet for the bottom. A cloth covered HD foam outer ring 4.5" tall with a Velcro strip on the outside to grab the case walls, one large divider, four medium dividers and ten small dividers. All of the above are adjustable with Velcro.

Computer Sleeve

2 sizes: A - 12" x 15" or B - 14" x 15"
Security pouch to help protect your notebook computer, constructed of neoprene style foam covered with 1400 denier cloth, a webbed finger loop on one end and a velcro webbed security flap on the open end, and an embroidered logo.

AV Kit/ ring, divider, & foam

Generic interior that allows the case to adapt to a variety of equipment. 1/2" sheet of HD foam for the bottom, a large outer cloth covered padded ring with Velcro on the outside to grab the case walls and 2 partial rows of Velcro inside that adjusts the semi-rigid divider as needed, plus a sheet of convoluted foam for the lid.

72" EXT/Tie Down Strap

72" long black 1" wide webbing strap has a nickel plated snap shackle on one end and was designed as a tie down strap for luggage stacked on top of your Porter Case.

Computer/ Insert - padded ring & foam

Generic cloth covered padded ring that allows the case to adapt to your notebook or other equipment. The cloth covered padded ring has Velcro on the outside to grab the case plus several blocks of medium density gray foam to help give a snug fit to your equipment.

NSPD/Non Skid Pad

Three 12" X 12" sheets composed of a waffled rubberized non skid material, designed to lay on top of your Porter Case and in between the layers of other luggage when it is in the cart position. Material will help prevent hard sided cases stacked on top from sliding around.

FM/Foam System II Kit

Four layers of gray foam 1.25" thick cut to fit the bottom of the case with a sheet of convoluted gray foam for the lid. Generic kit for most any application. Use a marking pen to draw outline of items to be protected and cut with electric carving knife, craft knife, or scissors.

PDH/Top Handle Pad

Designed for Porter Cases sold prior to June 1998. Handle pad, if added, provides comfort.
